QUALITY MANAGEMENT STATEMENT

Quality is important to our business because we value our customers. We strive to provide our customers with products and services which meet and even exceed their expectations. We are committed to continuous improvement and have established a Quality Management System which provides a framework for monitoring and improving our performance.

Management has designated competent individuals who implement and maintain an effective quality system. These individuals shall affect planning, operation and control to assure conformity in record keeping and to product requirements including but not limited to monitoring of customer feedback, corrective actions and supply chain management.

Steven J Strulowitz has the authority to assure that the quality system is effectively implemented and maintained. He will provide for the assurance of conformity to product requirements by managing and maintaining the infrastructure for inventory and repackaging processes.

A handwritten signature in black ink, appearing to read "Steven J. Strulowitz", is written over a horizontal line.
